**Subject:** re September 12 workshop on net metering (PSC Docket #2005-385-E) - hold as planned

Hello Ms. Boyd,

As one who is interested in and engaged in the matters before the Public Service Commission, I am hereby filing this request that the PSC move ahead with the scheduled September 12 workshop on net meeting and solar energy in South Carolina.

Given the rapid movement toward solar applications, especially in other states such as Georgia, we need to push forward with the discussion of how solar electric applications can be implemented in our state. The public is anxious for this discussion to take place and for plans to be implemented in our state.

As the potential for solar energy is promising in South Carolina and as time is of the essence in moving forward, I would hope that the September 12 workshop is held as now scheduled.

I request to be kept notified about the status of the meeting, which I had earlier noted on my calendar.

Sincerely,  
Tom Clements
